I found that I can edit using <http://www.drawsvg.org/>

Here I added the "Creek". Any other suggestions?

We paid and are licensed to use the Logo. I can reformat this as I paid an extra \$4.95 for font and color change for one year. I can't really edit the graphic, just change the colors. Maybe I can find software to work with the .svg graphic file format

Your Order #1895761

	Logo	Quantity 1	Total \$39.95
	Unlimited Color, Font & Text Changes for 1 Year	Quantity 1	Total \$4.95
Subtotal		\$44.90

Discount		\$9.99

One other issue, at the event in Purcellville, someone told me that a local business is using our same logo, but couldn't give me the name of that business. do you have a way to check this? I doubt that it is patented, so PTO database probably won't help here. Any other tools or ideas available to check this?

I met with a number of Purcellville city council members as well and they seem to be interested in our work and supportive. We can present to them at a future meeting. Might be useful if we try to extend the scenic area in the future.

Dominion Power had a representative there who I am going to spend some time with to ensure that we are consulted if anything impacts our area. They are very willing to do this.

Dave,

Could we get a simpler map of the scenic portion of the creek that gets rid of some of the color and topological info... kind of dumb it down a bit for the politicians. Maybe have a big star for Waterford and Taylorstown and major historical sites (Mills, bridges, current and historic roads, Civil War engagements, etc.)

I can help with identifying these. I think we need more of a "tourist" map for our display, website and slides.

Or we could ask Eugene Scheel if we could use one of his maps and blow it up? He may allow limited use.

I can submit several photographs and embed the new CCSRAC logo for the "Audio-visual loop". I am thinking of several from the scenic rivers in 2010, "Celebrate the Creek" and John G. Lewis Memorial Bridge. I could also prepare a simplified map showing where the scenic river is located. Any other ideas?
